Team contract

Team information

- **Course:** CS252.
- **Team size:** 7 members.
- **Team leader:** Nguyễn Tấn Minh.
- **Group repository:** https://github.com/callmelucian/cs252-final-project.

Student ID	Fullname	GitHub username	Role in the project
25125027	Nguyễn Tấn Minh	callmelucian	Team leader
25125084	Trần Gia Huy	FubuGold	Main system design
25125050	Bùi Đỗ Thiên Ân	Gasmask-Chan	Algorithm & Logic Developer
25125014	Nguyễn Đức Huy	SpheraXX	Front-end Developer
25125048	Lý Trần Thái	LyTranThai	Developer
25125056	Trần Đăng Khoa	trankhoa8581	Backend Developer
23125054	Ngô Tấn Đạt	diamondzone1	Security & Data

Goals

- Achieve maximized scoring on the final project evaluation.
- Provide team members with a high-quality showcase piece for their GitHub profiles.

Member responsibilities

- **Team leader:** Nguyễn Tấn Minh.
- **Main system design:** Trần Gia Huy
- **Developer:** Lý Trần Thái
- **Algorithm & Logic Developer**: Bùi Đỗ Thiên Ân.
- **Security & Data**: Ngô Tấn Đạt
- **Backend Developer**: Trần Đăng Khoa
- **Front-end Developer**: Nguyễn Đức Huy

Communication

- **Communication channel:** The main communication channel will be our Messenger group. Messages are expected to be seen within 48 hours. When receiving a message, members who have understood the message should react with some kind of emoji, otherwise, one must ask for clarification directly in the group chat. The team leader is the main contact for the instructor.
- **Meetings:** Weekly meetings are expected to be before lab sessions of this subject, depending on the team situation on that particular week.

Work process & standards

- **Task management:** Tasks and brainstorming sections will be managed on a shared Google Sheet, the team leader will keep track of the sheet and create reminders to make sure the team is always ahead of deadlines.
- **Code review:** Each member should review other members' code as assigned during the working of this project.
- **Decision making:** The team will decide base on majority votings.

Conflict resolution

- **Direct communication:** Members with differing opinions or disagreements will first discuss the matter directly and openly to reach a mutual understanding.
- **Team mediation:** If a consensus cannot be reached, the issue will be brought to the team for discussion and settled via majority vote.
- **Escalation:** If a conflict remains unresolved or threatens project progress, the team will consult the instructor or TA for final guidance.

Academic integrity and AI use

- **Global rules:** All brainstorming, decision making, planning will be mainly done by the members, possibly with some help from AI tools.
- **AI log:** Every AI usage is logged into a weekly log and will be included in the weekly report. Rules for logging AI activities are provided in `AGENT.md` in the root of the project folder.

Change of contract

- **Proposal:** Any member may propose amendments or additions to this contract at any time via group discussion.
- **Approval:** Proposed changes must be approved by a majority vote of all team members.
- **Updates:** Any approved modifications will be updated in this file and committed to the repository to keep all members aligned.

Signatures

All members have reviewed the team contract and agree to work with the aforementioned rules.
